

Environmental Innovations

Sustainability is our business

ENVIRONMENTAL
INNOVATIONS

Who we are:

Environmental Innovations is an environmental consulting firm dedicated to assisting businesses, local governments, and nonprofits across California and nationwide. We specialize in sustainability planning and program development, compliance support, waste management, water conservation, energy efficiency, and environmental certification and training.

As a certified woman-owned small business, a recognized B Corp, and a Certified Green Business, we possess extensive experience in crafting environmental solutions that foster deep collaborations and public/private partnerships to achieve measurable outcomes. We offer customized outreach and support programs for municipalities, along with comprehensive sustainability services tailored specifically for businesses.

Our Services:

- Small Business Environmental and Resiliency Outreach
- SB 1383 Outreach and Compliance
 - Organics Diversion
 - Edible Food Recovery
- ReUse Assist
 - Reusables Transition Support
- Foodware Ordinance Implementation and Compliance
- Green Business Certification Program Management
- Green Schools Initiative
- Stormwater Permitting, Inspection and Technical Assistance
- Waste Management Planning, Policy and Materials Recovery
- Energy Efficiency and Electrification Outreach
- Marketing Campaign Design and Implementation
- Financial Incentives Program Management
